Administrative Agency: Governor's Committee on Criminal Administration

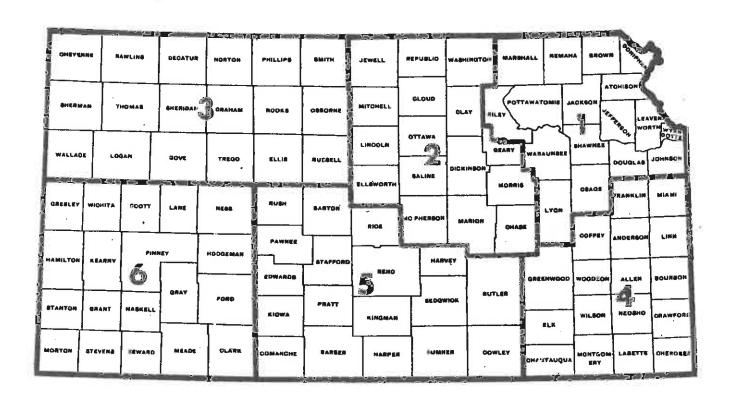

Creating Legislation: Criminal Control Act, 1973

Dates of Delineation: Regions 1, 2, 3 & 4 --- 1973 Regions 5, 6 & 7 --- 1974

Criminal Justice Planning Committees were created for the purpose of making crime control and criminal justice part of the comprehensive planning process in regional areas. The Regional Committees determine the needs of the region and assist in local planning efforts. Information is both collected and disseminated by the committees concerning the criminal justice system in their regions. It is up to the committee themselves to set priorities and thereby select and supervise action funded by the Law Enforcement Assistance Administration (LEAA).

Regions 4, 5, 6, and 7 are organized under their respective functioning Regional Planning Commissions. The Criminal Justice Planners in these regions are members of those staffs.

### HIGHWAY COMMISSION DISTRICTS

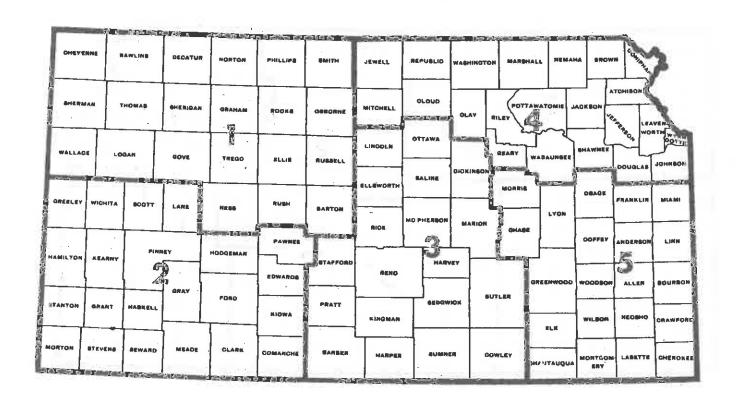

Administrative Agency: Kansas State Highway Commission

Creating Legislation: K.S.A. 74-2001

Date of Delineation: 1927

The purpose of the Highway Commission Districts is for the selection of delegates to serve on the commission. According to the statutes, six members are appointed to the commission, one from each of the districts. Under KSA 68-421, the highway commission is to administer and carry out the provisions of the Roads and Bridges Act and be subject to all Kansas statutes referring to highways and roads and all highway laws.

5

Ray M. Hoss, Director Southeast Area Extension Service 20 South Highland Chanute, Kansas 66720 (316) 431-1530

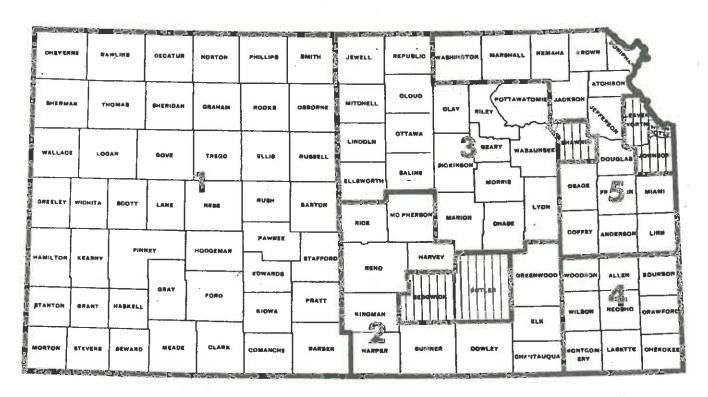

Administrative Agency: Kansas State University

Creating Legislation: Smith-Lever Act, 1914

The Cooperative Extension Service, as administered in Kansas by Kansas State University, is part of the Land Grant University System in each state. Funding is on a cooperating basis from Federal, State and local tax funds.

The broad objectives of the Extension Service are to provide educational programs based upon needs identified by local people in the broad fields of (1) agricultural production and marketing, (2) community development, (3) home economics, and (4) 4-H and other youth development.

### MANPOWER PLANNING AREAS

- 1 Western Ancillary Manpower Planning Board
- 2 South Central Ancillary Manpower Planning Board
- 3 North Central Ancillary Manpower Planning Board
- 4 Southeast Ancillary Manpower Planning Board
- 5 Northeast Ancillary Manpower Planning Board

Administrative Agency: Governor's Committee on Manpower Planning

Creating Legislation: Manpower Planning Act, 1962

Date of Delineation: 1972

The Manpower Planning Areas in the state are presently operated by a statewide system under the direction of the State Manpower Planning Council and the Governor's Manpower Services Council.

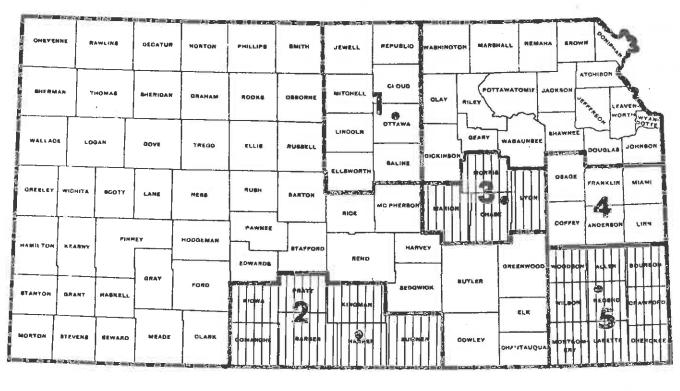

The basic function of the manpower councils is to maintain

lists of eligible unemployed people in the state and a current list of the types of jobs available (and those to be made available) and recommend training for those eligible persons.

The planning areas in the state were originally organized and designated in 1972. However, over the years the activities of these five councils has now been centralized into a statewide function.

The areas are still used for planning purposes with a director in each area providing information and recommendations to the state councils.

5

See-Kan RC&D Project Office Box 502 Chanute, Kansas 66720 Jim Gaskell, Project Coordinator (316) 431-6180 Administrative Agency: U.S. Department of Agriculture, Soil Conservation Service

Creating Legislation: Food and Agriculture Act, 1962

Dates of Delineation: Sunflower RC&D - 1967

Four Rivers RC&D - October, 1972 See-Kan RC&D - January, 1973 Flint Hills RC&D - January, 1973 Lake Region RC&D - December, 1973

"Resource conservation and development (RC&D) projects help people take better care of their natural resources and, at the same time, improve their community's economy.

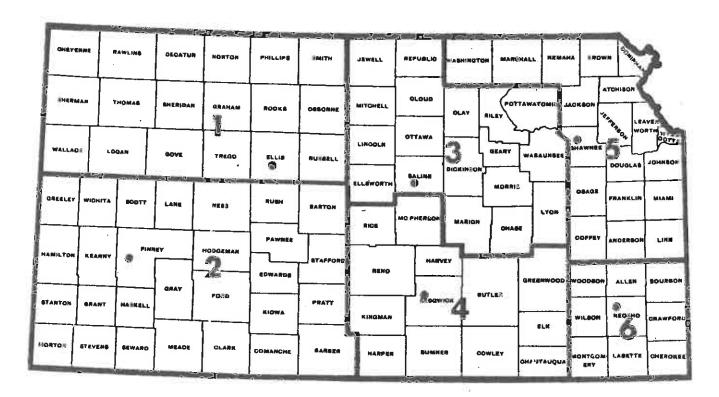

"These projects are locally initiated, sponsored, and directed. They provide a base for people to come together to plan and carry out actions that will make their area a better place in which to live, work, and play.

"Each RC&D project has its own locally developed goals, but in general the goals are to:

- Develop land and water resources for agricultural, municipal, or industrial use.
- Provide soil and water information to other planning agencies on such resource uses as farming, ranching, recreation, wildlife habitat, housing, industry, and transportation.
- Carry out such measures as sediment control, flood prevention, farm irrigation, and recreation, fish, and wildlife developments.
- 4. Accelerate soil surveys and interpretations where they are needed in community planning.
- 5. Reduce pollution of air, water, and soil.
- Speed up conservation work on individual farms, ranches, and other private holdings, and on public land.
- 7. Make needed adjustments in land use by converting poorly suited cropland to more beneficial uses -- grass, trees, wildlife habitat, and recreation.
- 8. Improve and expand recreation facilities; promote historical and scenic attractions.
- 9. Encourage existing industries to expand

- and new ones to locate in the area and thus create jobs; encourage industries to process and use products of the area.
- 10. Improve markets for farm crops, forest products, and livestock.
- 11. Improve, build, or bring to the area needed community facilities such as hospitals, schools, sewage treatment plants, and roads.
- 12. Encourage training and retraining programs to improve job skills."\*

Administrative Agency: Kansas Department of Social and Rehabilitation Services

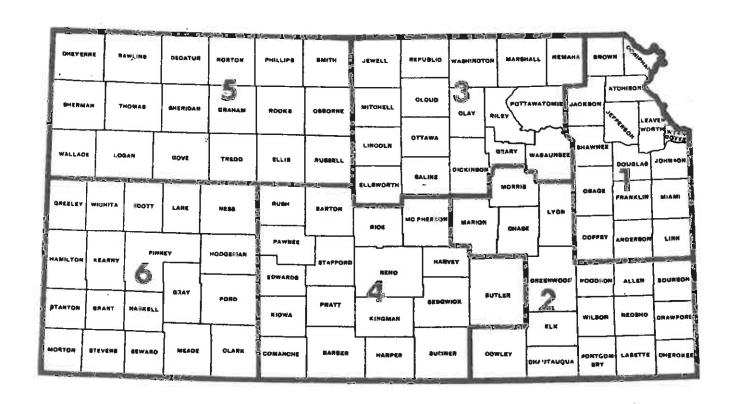

Creating Legislation: House Bill 1039

Date of Delineation: January 1, 1974

The Department of Social and Rehabilitation Services was created under the reorganization of the welfare system. Under this present system, services dealing with welfare are all in one administrative department of state government and the regions act as lower echelon units in the coordination and distribution of those services.

Each region is under a director who works through various established county offices, one in each county. These regional directors are under Miss Wanda Kimbrell of the Department of Social and Rehabilitation Services.

5 Tom D. Dicken 1010 East 17th Hays, Kansas 67601

6 Coy A. Garrett 900 W. Highway 50 By-Pass Dodge City, Kansas 67801

Administrative Agency: U.S. Department of Agriculture, Soil Conservation Service

Creating Legislation: Soil Conservation Act, 1935

"The Soil Conservation Service of the U.S. Department of Agriculture is responsible for developing and carrying out a national program of conservation and development of land and water resources. The Service assists landowners and operators within locally governed conservation districts to:

- 1. Bring about physical adjustments in land use to conserve soil, water, and plant resources.
- 2. Establish a permanent and balanced agriculture.
- 3. Reduce damage caused by floods and sedimentation.

"Special drainage, irrigation, flood prevention, and watershed protection activities are developed and carried out in cooperation with conservation districts, watershed groups, resource conservation and development groups, and other federal and state agencies.

"The central objective of the Soil Conservation Service is an integrated system of land use and conservation treatment that is in harmony with the capability of the land and the needs of the people.

"This is accomplished through unified planning that combines all the technologies, considers all the resources, and recognizes all the human interests that apply to each area of land."\*

### WATERSHED PROJECTS

Administrative Agency: U.S. Department of Agriculture Soil Conservation Service

Creating Legislation: Watershed Protection and Flood Prevention Act, 1954

Dates of Delineation: As applications are approved.

The Watershed Project is a different form of planning district. Watersheds follow topographical features rather than legal boundaries:

"SCS has general responsibility for administering the Watershed Protection and Flood Prevention Program. This includes the development of guiding principles and procedures. SCS investigates amd makes surveys of proposed small watershed projects upon application by local sponsoring organizations. SCS helps prepare work plans. It cooperates with local sponsors, state and other public agencies in installing planned works of improvement. The improvements are designed to reduce floodwater and sediment damage, further the conservation, development, utilization and disposal of water, develop recreational facilities, and improve fish and wildlife habitat."\*

Greater Northwest Kansas, Incorporated, is a non-profit organization designed to promote the economic development of the 18 counties in northwest Kansas.

The corporation has five functioning committees,

including transportation, tourism, industrial, planning and commerce. Working closely with the Northwest Kansas Regional Planning and Development Commission, Greater Northwest Kansas, Inc., was responsible for its inception.

The major objectives of this private economic development association are three-fold: (1) find solutions to the area's liabilities or negative factors which may inhibit economic-growth; (2) give assistance and encourage existing industry and other economic activities to insure their continued growth and operation; (3) identify, meet with and negotiate with potential new industry and economic activities best suited to the area.

Memberships may be purchased for \$100 each by any corporation, business, organization or individual. Each membership carries one vote on business matters. Money from these memberships is used in operating the corporation.

Mid-America, Incorporated, is a non-profit development organization operating in Southeast Kansas since 1965. The area served is the nine contiguous counties which comprise the Southeast Kansas Regional Planning Commission.

Mid-America, Inc. served both as an economic development organization and as a technical advisory organization for planning in its early stages. However, because of the establishment of a regional planning commission in the area, Mid-America, Inc. is no longer involved in planning, but rather is engaged in advertising and promoting industrial development in the region.

The Board of Trustees represent private, industrial and business interests within the nine counties. Many of its members are Chamber of Commerce oriented, however, the organization is totally oriented toward the improvement of the business and industrial community.\*
